"Both men and women sprang from monkeys, but the women sprang farther than the men."

Same way with furniture.

All furniture sprang from wood (after the Stone Age) but some gets farther than others from mere WOOD.

Furniture is considered at Hooker's from the standpoint of adaptability, and this embraces not only its fibre, grain, structure and composition, but its style, finish and color.

Appropriate furniture for every spot in the house.

Our Service is at YOUR service.

We have been training and studying the "usefulness" of furniture for 25 years. It will be worth your while to use this knowledge when ready to make your home more attractive.

Anthony Joseph, who has been visiting friends and relatives in Burlington, while on a business trip in connection with the Vermont Fruit Co., since the latter part of last week, returned to Barre last night.

Without the proverbial fruitless search, a hay stack or a pile of hay at the Raymond Diemer farm on east hill yesterday gave up a valuable tooth which a visitor at the farm lost last Sunday when the farmer and his wife celebrated their 50th wedding anniversary. Minus a gold-capped artificial tooth which had held a conspicuous place in the mouth of its owner, the owner reported his loss to Mr. Diemer, but had so little faith in the latter's ability to restore the lost incisor that he negotiated with a tooth carpenter to have the member replaced. One of Mr. Diemer's hired men spotted the missing porcelain among loose wisps of hay in the barnyard and immediately turned it over to his employer.
